Junior Software Engineer at Deep Mind Labs and Software Engineering student at SUST. Full-stack developer building production web apps with Next.js, React and TypeScript, and personal products with .NET, Kotlin and PostgreSQL.

Experience

Deep Mind Labs, Junior Software Engineer — Nov 2025 – Present

- **Doctor Portal** (healthcare, multi-tenant): main contributor on patient assessment and reporting. Built range-of-motion reports with initial vs follow-up comparisons and charts, and interactive front/back body-map pain charts.
- Implemented queue-based report generation and download, report rescoring, doctor flows to skip, reset and bulk-manage exercises, and appointment and follow-up invitation features.
- **UVP** (visa processing): built the customer web app's sign-in (email OTP, password reset, token refresh), a multi-step application wizard with document upload, and the order dashboard.
- Next.js, React, TypeScript, Refine, Ant Design, Redux Toolkit, TanStack Query, Recharts, Docker

Education

Shahjalal University of Science & Technology (SUST), B.Sc. in Software Engineering — 2022 – Present, Sylhet

Skills

Languages: TypeScript, JavaScript, C#, Kotlin, Python, Java, C++, C, SQL
Frontend: React, Next.js, Tailwind CSS, Redux Toolkit, TanStack Query, Refine, Ant Design
Backend & Mobile: ASP.NET Core (.NET), Node.js, Express, Spring Boot, SignalR, Hangfire; Kotlin + Jetpack Compose, Flutter
Data & DevOps: PostgreSQL + PostGIS, Redis, MongoDB, MySQL, Firebase, Prisma, EF Core; Docker, GitHub Actions, AWS, Git
Concepts: OOP, Design Patterns, Data Structures & Algorithms, Multi-tenant architecture, Test-driven development

Projects

SOS Emergency Bangladesh, *.NET 8, PostgreSQL + PostGIS, SignalR, Next.js, Kotlin* — private repo

- Emergency platform connecting people with nearby mechanics, ambulances and fire services: one-tap SOS with GPS, live location and chat over SignalR, PostGIS nearby search, OTP + JWT auth, bilingual web and Android apps.

FarmAI, *.NET 10, PostgreSQL, Hangfire, Gemini, Next.js, Kotlin* — prototype

- AI crop-disease diagnosis that turns a photo into a basket of real, priced treatment products. Built the modular-monolith API, a staff and vendor panel, and a farmer app with a marketplace and Bangla voice weather alerts; test-driven with CI.

Turf Booking SaaS, *.NET 10, PostgreSQL (RLS), Redis, SignalR, Hangfire, Next.js* — private repo

- Multi-tenant booking platform for football turfs: database-level double-booking guard, bKash payments with reconciliation and refunds, owner dashboard with cash close and audit log, SMS confirmations, platform billing.

Sebika, *Node.js, Prisma, PostgreSQL, React, Kotlin, AWS, Terraform* — private repo

- Bangla-first Android medicine reminder that reads prescriptions with AI; per-tenant data isolation, audit log, admin dashboard with Cognito sign-in, and AWS staging deployed through GitHub Actions.

Gold.bd (client project, hakaluki.dev), *Next.js, Express, PostgreSQL, Flutter*

- Gold shop and digital gold wallet on web and mobile: buy and sell gold with payouts, wallet withdrawals, bKash and Nagad checkout, delivery tracking, and several app releases.

SkillMate AI Platform, *Spring Boot, MongoDB, React, FastAPI, Gemini* — github

- AI learning platform (built with a teammate) that generates study material from video content, with WebSocket updates.

Earlier: SmartSchool (React, Express, MySQL) · ICERIE 2025 website (Next.js, team) · Library Management App (Android, Firebase)

Competitions and Research

- BdSL Bangla Sign Language: feature extraction and SVM/LSTM models
- Astrobee Kibo Robot Programming Challenge: autonomous robot programming in Java
- NASA Space Apps Challenge Bangladesh 2024: selected participant
- UIHP Farm AI Project: 2nd Runner-up
- Therap Javafest 2025: qualified participant
- EDGE Data Science: certified trainee (80 hours)

Problem Solving

Solved 400+ problems using C/C++ on LeetCode, Codeforces, CodeChef and VJudge; regular DSA practice. Codeforces · LeetCode

Organizations

Chokh Film Society (CFS), Vice President — Aug 2025 – Present
Tangail Students' Association of SUST, General Secretary — May 2023 – Nov 2024
University Innovation Hub Program (UIHP), Campus Ambassador — Nov 2022 – Present
